

PEAR LIGHT 3.0

Each of the lighting collections are inspired by nature and the Pear was initially inspired by the natural form of the avocado. Since conception the shape of the Pear has evolved into two further shapes, consisting of a more rounded single glass globe, and a double glass globe.

The Pear lights are available in three different shapes; Pear 3.0 features a combination of a small and large globe formed together, to create a shape more synonymous with the traditional pear.

PRICE
£750 per unit
