

DEWDROP SMALL

Derived from the way in which morning dew collects and then falls from a leaf, the Dewdrop was originally designed as part of the DH Liberty Venice Biennale Dewfall exhibition.

Each Dewdrop is one-of-a-kind and is individually handcrafted, blown and formed by local UK artisans.

The small drops are ideal as a bedside accent in a cluster of two or three or accompanied with the large drop as bespoke centrepiece arrangement.

PRICE

£450 per unit

Price may vary depending on material choice.

LEAD TIME

6-8 weeks

COUNTRY OF MANUFACTURE

United Kingdom

BULB

LED Chip (350mA)
2700k
